LETS TALK MAINTENANCE & HOME CARE

Extensions are required to be moved up or adjusted every 2-3 months, depending on the extension type.

The cost for these adjustments is: \$_____. (price is subject to change) These adjustments will include:

Extensions can be a lot of maintenance. They require frequent salon visits, lifestyle adjustments, and require more time to style daily. At a minimum, you should apply a weekly hair mask, daily oil, or serum and utilize hydrating or moisturizing shampoo and conditioner purchased from a professional salon only. You should sleep with a braid nightly, never sleep with wet hair, and brush your hair 2-3 times per day. You should never fully submerge your extensions into a swimming pool, jacuzzi, or ocean water. If you must, you should utilize a swimming cap OR apply a liberal amount of leave-in conditioner to the hair prior to submerging.
